

Terminal

Felix Sandman

The space is running out
This pain feels terminal
I'm too far, growing numb
See it the way it was

(Thought you cashed out
Didn't go your way so you lashed out
Did you know about the things that you let die?
Parted ways but will never let you sleep tight, yeah)

My momma stressin', can you make enough to cash out?
That's her depression, sick of lessons so I lashed out
If I'm not doing it for me then there's no worth
Might just slip me one these, going head first
Bring it back, losing track, full attack
Give me truce, give me love (yeah)
I caught the trash, cut it out, didn't even care about it
Nothing gets me moving forward
Lost my sense of living, gotta slow down
Can't just sit around on a weekday
Can I trust the system when it's prepaid?
Is there somebody that I could call now?
Insecurities set in control now
20 stacks, they tryna make it easy for me
Money never gave me no hope
Can you catch me if I let go?

The space is running out
(I never thought)
This pain feels terminal
I'm too far growing numb
See it the way it was

And we don't talk much or nothing
Cause when we do, you use my words as supplements to strengthen your mood
It's overdue that you decide what you feel
A new motive a new chance at a thrill
Use something proved to get us over the hill, I'm sorry I spilled, I can't contain it all in
I found myself falling from the stars again
Break the fucking ground and then I have try and start again

That shit sways
Do it your way
Got me fucked up
In a suicide state
Yeah we fucked up
I was finna say
Can not deal with love, just go bill it our way
Shorty don't believe it
(Must be on that coin tripping)
How can you be low
When everything is gold
Party on the weekends
(Leave me in the dark, never pay me no regards)
I'm spending all my soul
Leave me all alone

(Shorty don't believe it)
With somebody
With somebody
You're in love with the past of somebody

The space is running out (of somebody)
(Of somebody, and I never thought)
This pain feels terminal
I'm too far growing numb
(Talking bout the way that you gon get it)
(Talking bout the way)
(Talking bout the way that you lost now)
See it the way it was
(You can lead the way and I'll go with it
You can lead the way and I'll go with it)
