

This Time intro

Felix Sandman

Carry us, this is all we got
Carry us, this is all we got

Right from the start I knew that I would get lost
Turned a blind eye, you were there for me, cared for me
This time, I need your light
Cared for me
This time, I need your light

Been a low tide, lately, feeling like I'm empty
When I see how I've been stretching out to make things
There's a part in me that's been wanting me to end it
But I'm holding on
(Alone with my thoughts, can you set me free)
I feel like nowhere to go now
I took a pill, got my soul flushed
(It's all that I've done, I die for relief)
I lost my legs, I can't walk now
Head to the ground, hands to the sky

Carry us, this is all we got
Carry us, this is all we got
Carry us, this is all we got
Carry us, this is all we got

Free my minds, picking sides
Leading different lives
See the signs, push it down
Dressing tears with ice
This time, this time, this time, this time

Ooo I'm fading away
I'm fading away
Ooo I'm fading away
I'm fading away

Carry us, this is all we got
Carry us, this is all we got
Carry us, this is all we got
Carry us, this is all we got
