

All For You

Felly

I gave it all for you
You own my heart you do

I gave it all for you
I gave it all for you
Darlin I can't get enough of you

Don't get confused and mix me with other dudes
Who only want see you loose
Lil mama you gotta choose

I'll improve and find all my missing screws
We've seen every shade of blue
But look at the way we grew aye

Don't make me do it
Don't wanna leave you
But I need to if it's ruined

You've got some love left
Better show it or I'm moving
Girl your mind is confusing
Talking to me like who's this
Better we face the music

But you say nothin lasts forever ever ever
You in my head and now I want you more than ever
And I don't practice Santeria
But girl you've got a spell on me, I want you and I need ya
I gave it all for you

You came in and turned my whole World round
The only one who put me on the 9th cloud
I need you to listen to me right now

I gave it all for you
You own my heart you do

Lazy kisses in Brooklyn, you was my misses
Put you through all that distance
I hate to see turned into bitterness
I had this vision but then
Who am I kidding
Since I got back on my pimpin
You the only one I'm missing

I'd put a kid in ya if you felt something similar
The thought of you with someone else
That shit get vivid though

I gave it all you'd probably laugh
And say I didn't still
See you round in my denim
Telling the World we finished like ahhh shit

You came in and turned my whole World 'round
The only one who put me on the 9th cloud

I need you to listen to me right now

I gave it all for you
You own my heart you do
I gave it all for you

You own my heart, yes you do
For all time, I'm yours and you are mine
