

Cherry

Felly

Think I'm in love for the first time
I'll let you know
Anything's possible

Feels like I'm falling
I want you all over again
Tell me it's innocent

Back then I'd say I love you
I ain't know what it meant
I think that now I know

Coming home late
And you gone
Wanna know where you went
Found myself all alone

And I said

Cherry
Won't you come home
This house not the not same
When it's vacant
(When it's vacant)
(When it's vacant)

Cherry
I can't let you go
Spare me some time
You my favorite
(You my favorite)
(You my favorite)

Drive to oblivion
I'll stay resilient
I think you brilliant
Mind worth a million

Plus you fly like Amelia
Slide like chameleon
Make me feel really good
We both misunderstood

But you know it's all fine
Girl we can take our time
Maybe we can unwind
Maybe we...never mind

And we riding
To the sun
Cause girl you remind me
There's a God

Do I ever cross your mind?
Cause you've been on mine
Tell me though
Tell me though

Cherry
Won't you come home
This house not the not same
When it's vacant
(When it's vacant)
(When it's vacant)

Cherry
I can't let you go
Spare me some time
You my favorite
(You my favorite)
(You my favorite)
