

## Gloria

Felly

Faded glory hung on suspenders  
Her name was Gloria, Gloria, Gloria  
Don't gotta worry or start pretending  
Feels like euphoria, euphoria  
Shoot off the hip!  
Keep a toothpick in my lips  
Cowboy boots on some snakeskin  
And I glow I don't dim  
They can't go where I've been round the world with this shit  
Can't get the fuck out my head  
Feel like I'm already dead  
Still I'm well fed and I don't have no answers  
I heard they within  
Shoot off the hip uh

Can't keep on waiting, thinking something  
Gonna help you  
Everyone's jaded, they be bluffing tryna sell you  
Gloria take me, show me something to inspire  
Glory has faded, glory has faded

Can't make no plans I'm too tied  
If I got down time I'm tired  
She just wanna kick like muay thai  
Title fights feel like Jas Prince  
Half a mil sitting with Vince I'll save that for my kids  
I look out from my tints, this mad world that we in (yeah)  
Selfish, say I'm selfish  
I don't owe you shit I am rebellious  
I'll die like Elvis, survived crashes, free up my felons  
See you on Ellen, this some Young Fel shit  
Seen this shit coming from miles, ugly success has arrived  
Like why'd you stop going outside?  
Why'd you feed into they lies?  
Why'd you stop trusting in God?

Can't keep on waiting, think it's something  
Gonna help you  
Everyone's jaded, they be bluffing tryna sell you  
Gloria take me, show me something to inspire  
Glory has faded, glory has faded, glory has faded...
