

Love And Fear

Felly

Between love and fear
Girl be nice to me
She said she need a re-up
That's not a bad idea
And if looks can kill (yuh)
I'd be unfamiliar
We could do it for real though
Depends on how you feel though

Funny how you treat me like I'm new to this shit
I've been moving like I got a fucking movie to script, yea
Lifestyle left my heart as a souvenir
Round the world leaving parts 'til its hard to feel love

I fear the fall off, Got fucking problems
Won't fucking cut costs, you know it's on us
Might fall in love and spend the night

Kiss me fore I go
Let me know you a rider
Kiss me fore I go
Let me know (let me know, yeah)

Kiss me fore I go
Let me know you a rider
Kiss me fore I go
Let me know (let me know, yeah)

(You a Rider)

I got some change you got a bass
I hope you play it everyday
I can't complain you hard to blame
I did some things it's not the same
Reno last show I caught a flame
I'm on a plane you wait up late
PTSD inside your brain
But it's OK it's all a game

And you surrounded by love why you hide under fear
I ain't even out the gate just say I had a good year, oh yea
Lighting up to the top till I start to chill
Break your heart fix you up till you start to feel love

I fear the fall off, got fucking problems
Won't fucking cut costs, you know it's on us
Might fall in love and spend the night

Kiss me fore I go
Let me know you a rider
Kiss me fore I go
Let me know (let me know)

Kiss me fore I go
Let me know you a rider
Kiss me fore I go
Let me know (let me know)
