

# Midnight

Felly

And we just ridin' down [?], you know what I'm sayin'?  
Drinkin' some in the back  
Sheesh, sheesh, skrr  
Yeah

In the back seat of the whip, with a spliff, holdin' a fifth  
All my exes come from Texas, all my next was on my dick  
Only captain steer this ship  
And I came up scared of shit  
Before Sway was sweatin' bricks  
Before rap was sellin' piff  
I got stripes, experience (Experience)  
Bitch, hol' up  
Let me talk my shit, touched a M and I still don't feel shit  
I need stamps 'cause you know that shit hit  
This the sound of the six speed  
Askin' my advice? Follow your dreams  
PTSD, nothin' come free  
Sick as a bitch (Bitch), vitamin C (C-C, C-C)  
Please, I ain't new to this, don't you worry 'bout me  
Losin' myself like, "Who is he?", but before you leave

Don't forget what momma taught you  
Them temptations gon' cost you  
I could use someone to talk to  
That's midnight and I want you  
That's midnight and I want you

Yeah, bad vibes, 666, no lie, I'm built for this  
Who got 'em down for you? But why I got sins like this?  
Hold on to your innocence, smoke that 'til there's nothin' left (Smoke)  
Two shows and we onto the next (Oh)  
Been tryna find God in sex  
Like this top, don't give me lip  
Like the winter ruin my kicks  
He said his parents callin' it quit, I pick 'em up and we get lifted  
Ridin' past the house where I was born, everything shifted  
God-fearing, could've swore this came with [?]

Don't forget what momma taught you (Ah, ah)  
Them temptations gon' cost you (Ah, ah, them temptations gon' cost you)  
I could use someone to talk to (Ah, ah, I could use someone to talk to)  
That's midnight and I want you (Ah, ah, that's midnight and I want you)  
That's midnight and I want you

That's midnight and I want you (Want you)  
That's midnight and I want you (Want you)  
That's midnight and I want you (Want you)

That's midnight and I want you (Want you)
