

Overload

Felly

I've been out my mind for a while now
Somewhere 'long the line I think it timed out
I let go and lose control, lose control, yeah
Life can be an overload
Overload
Not sure how I got here in the first place
I know people judge me by my worst days
But I let go and lose control, lose control, yeah
Life can be an overload
Overload

Run in my mind like track stars
Tell me it's not a race
Catch a lil air in the backyard
I can't even feel my face
Rollin' up green, finna soothe my soul
And mute the bull, aye
Thinkin' 'bout things that I'm never gon' know
Can't get no closure, yeah, yeah
Demons on my line, 365
With a freak on my line
It's the middle of the night
But I can't go home
Gotta walk this road
All by yourself, but you ain't alone
You ain't alone though, yeah

I've been out my mind for a while now
Somewhere 'long the line I think it timed out
I let go and lose control, lose control, yeah
Life can be an overload
Overload
Not sure how I got here in the first place
I know people judge me by my worst days
But I let go and lose control, lose control, yeah
Life can be an overload
Overload

Yeah
And I hope somebody remembers me
The person I truly intend to be
I don't want no one to tell me a lie, but also don't wanna think sensibly
Maybe I might need to roll up a blunt and fill up my lungs, a remedy
Lotta things easier said than done, so biting my tongue's a tendency
My life movin' sideways, movin' sideways
Like I'm stuck in my ways, I need my space
I just gotta be free
Still, sometimes I'm too much for me
Least how it seems

I've been out my mind for a while now
Somewhere long the line I think it timed out
I let go and lose control, lose control, yeah
Life can be an overload
Overload
Not sure how I got here in the first place
I know people judge me by my worst days

But I let go and lose control, lose control, yeah
Life can be an overload
Overload
