

Ridin' Round

Felly

If it feels good, let it feel good, ya know

Been sipping' it too

Ayo

Riding' round

Everybody know me on this side of town

I turn my music up

I roll my windows down

This life is so sweet I need another round

So hold me down when I'm...

Ayo I woke up this morning

Laid in bed for an hour, the I got to recording

And I been lookin' out for you

Because I like the way you groove

And how you always down to come through

I'm leaving for the west coast

My brothers said "get busy stacking, or gone get broke"

And so I'm leaving with a dream

And my beats maschine

Miles away form my team

But when I come back

We got' kick it with ease

For now I'm riding' solo

Cop the merch, Now who down to fill my promo

I'm moving slow, I spent the whole day sleeping

Partied the whole weekend

But I swear I'll be okay

Even yo momma she be tweakin'

I got out from school, 2 o'clock

Cruised a little, burned a lot

High School shit lot cooler now

Prom dates be like "who you got?"

Like, whoop, I'm getting high to fight [?]

Put me in the water, Imma roll like this shit Canary

Come and join our family, (uh huh)

And feel this rhyme and most I see is uninspiring

Still I wake up and I'm grindin'

I got that sunshine in my head

Sometimes growing up get's cold

I rock my brothers threads

I'm taking corners quick in my Mazda

Penne alla vodka, Jamie used to dress me up

And Matty was my poppa

Got me thanking God for everything we been through

And when I'm gone, best believe I'm gone' miss you

(Till then I'm)

Riding' round

Everybody know me on this side of town

I turn my music up

I roll my windows down

This life is so sweet I need another round

So hold me down when I'm...

Riding' round

And everybody know me on this side of town
I turn my music up
I roll my windows down
This life is so sweet I need another
So hold me down

Shit's so fucking good
