

# So Cold

Felly

(Check. Made this beat, yo)

Everyday feels so mundane  
Days drag on, nights the same, spent my time, in my brain  
Walk around still feel so strange  
Raise your cups, pray for us, pray for luck  
No time [?]  
Morning gloom when I'm waking up  
With those clouds coming, cold out  
Hold it down y'all sold out  
I wish you well and nothing less  
Take a few days off go ease that stress  
My life gulps vanity, lost my sanity, miss my family  
Losing hope how can it be so cold?  
So cold?  
So cold?  
So cold?  
How can it be so cold?  
So cold?  
So cold?  
So cold?  
Now everyday black white  
Don't know how to act right  
Mind deep in the stress. On the run from the happiness  
Well I get soaked up full with that vinyl  
My only means of survival. So the question if I'm worth while. And I can't find shit in the bible no my faith low my days slow my room filled with that vape smoke  
I lay low, gotta recoup  
Swear to God everybody see-through  
When I wake up and I can't move  
Things to do but I hit snooze  
Don't wanna go through what I been though  
And the world I'm walking into is so cold  
So cold  
So cold  
So cold  
How can it be so cold?  
So cold?  
So cold?  
So cold?  
I don't think I can love no woman. I don't think I can stop my pushing. Every time I get close to a chick I just put 'em behind on my beats sayin' "shit ."  
They don't like that. She send a text I don't write back  
There's something else I aspire to  
She's fed up and I'm tired too  
Yo I spent my nights tryna multiply  
Working like the shit do or die  
Unbalance life, either sick or fly  
Like I'm in the dirt or I'm stupid high  
Guess that's life that's just me. Restless don't trust me  
Tough week, time will tell  
Irony, cold as hell  
How can it be so cold?  
So cold?  
So cold?

So cold?  
How can it be so cold?  
So cold?  
So cold?  
So cold?
