

Something Restless

Felly

I'm something restless
High by the end of the night
Slow down all your engines
Look around, feel my presence
I'll let you know

These days I let you go too easily
I still remember when you wouldn't leave me be

Stop, stop, stop crying (Stop crying)
Start, start, start shining (Start shining)
I run up your mileage, I'm high as a pilot (As a pilot)
High as a (High as a)

Just keep on smiling, 'cause
These days I let you go too easily
I still remember when you wouldn't leave me be
I'm something restless

T, I'll be flashing in a blink, uh
Rewind, remember what you dreamed of
And did you get there yet or is you still going?
Don't let 'em fill your head, your momma still love you

Hard to keep track of my blessing's
I fucked around and got lost in these sessions
Dawg, back in the days I was stressing (Oh-oh)
All that pretending
I'm something restless
Dawg

Baby, come on down
The summer's almost ceased
My flower's on the ground
My daddy rest in peace

I still don't hear a sound
They plastic like a beach
Stack up another thou'
It never bring me peace, but
(No, no, no, no)
(Peace, but)

I'm something restless
Ooh, yeah (Ooh, yeah)
High by the end of the night
Slow down all your engines
Look around, feel my presence
I'll let you know

These days I let you go too easily
(These days)
I still remember when you wouldn't leave me be
