

There's No Other

Felly

You don't know love
Til you meet another one
Show you how to grow up
Cause you know there's
No need to be someone

Feeling so numb
When I need somebody
Even though it's not funny
Do you know what its like to need? (Need, need)

Keepin in touch
But only so much
Cause its not worth the fuss
Do you know what it's like
To leave someone?

Since we was young
Where you go I would run
But it's all been undone
Really no need to be
So apart

Cause there's no other
I wanna see you be my lover
There's no other
Don't wanna see you with no other

What if I told you I don't got no one?
Who was I back when I was what you loved?
Somebody told me it couldn't be us
Been every where I got nowhere to run

Cause there's no other
I wanna see you be my lover
Cause there's no other
Don't wanna see you with no other

You don't know love
Til you meet another one
Show you how to grow up
Cause you know there's
No need to be someone (been everywhere I got nowhere...)
Feeling so numb
When I need somebody
Even though it's not funny
Do you know what its like to need? (Need, need)
