

Water

Felly

I wanna go back to sleep, see how this thing plays out, love
I was gonna buy some weed, blow out some steam, blaze up, blow down, girl
And she said that she want me not for the money, not for materialistic things
Fine little blonde ting, wanna call her honey, seems like a unrealistic dream

Said she liked the way that I groove, it makes you wanna move
Damn girl those hips don't lie and I'm telling the truth
Anytime that I'm with you I'm in the best mood
And my friends approve, 'cause they think that you cool
Damn my eyes are stuck on your body like glue
Don't know what to do any longer
I need you like I need water, like water, like water
I need you like I need water, like water, like water
I need you like I need water, like water, (like I like) like water (like, like)
I need you like I need water, like water, (like I like) like water
I need you like I need water

I used to want her like a movie star, hollyweird
Moody girl, fine as hell, clientele
That's until I found a finer one, like [?]
Bon Iver, lift me up when I'm down, that's my water
But the truth of it all is you don't remember me at all, until I call, yeah
You drug me, my color the aqua marina
In to deep, my lover, need more days of summer
Don't you worry when I stay out late, on my game
Think I'm moving on to finer things, no mistake
You my baby since back in the day, feed me grapes
Make you CD's once I find a blank, finer things
Hit you up I hope you wide awake, yeah
Take off and the rain won't stop, on the 405 in a big white car
I don't talk down just to say I'm up
Ay, ay, ay, whoa, whoa
Ay, ay

Said she liked the way that I groove, it makes you wanna move
Damn girl those hips don't lie and I'm telling the truth
Anytime that I'm with you I'm in the best mood
And my friends approve, 'cause they think that you cool (oh yeah)
Damn my eyes are stuck on your body like glue
Don't know what to do any longer
I need you like I need water, (like, like) like water (like, like) like water (like, like)
I need you like I need water, (water) like water, like water
I need you like I need water, (yeah yeah) like water, (yeah yeah) like water (yeah yeah)
I need you like I need water, like water, like water (oooh)
I need you like I need water

Yeah
I need you like I need water, yeah
Oooh, yeah, like like (like a light)
Like a light, like a light, like a light
Like a light, like a light, like a light
I wanna go back to sleep, see how this thing plays out, love
