

## Weak Hearts

Felly

It's all said and done  
My commitment to anyone  
I'm done living for anyone  
Say you with me, you never was (never was)  
And from the hell I've done  
To the heaven and everyone  
Til gold is dripping on everyone  
I'm higher up than I've ever gone

Weak hearts don't come around no not round here  
Speak up, you might well say how you feel  
Cheap love, designer drugs, and dollar bills  
Sweetheart is not enough, we're all in hell

Timeless so I grow up slower  
Top list of the forward culture  
Getting top in the four door  
Blowing loud 'til there's no emotion  
Everybody want to blow they fortune (woo)  
Gram keep praying and keep believing  
God gets lost only claim misfortune  
This shit gets annoying, fuck  
I'm my own employer  
I got Godly style with it  
Lying to my girl like politicians  
Brain like Harvard, Lord I'm vicious  
Go forth and ignore the mistress  
Getting close yeah it's fourth and inches, but  
Weak hearts nothing to lean on or lead on  
Feel the love

Weak hearts don't come around no not round here  
Speak up, you might as well say how you feel  
Cheap love, designer drugs, and dollar bills  
Sweetheart is not enough, we're all in hell
