

## A Wave Crashed on Rocks

Felt

People are crying  
What are we going to do  
People are crying  
I don't care about them I care about...  
You in your wisdom you ruined it all  
You sacrificed me for the cause of the storm  
You ruined it all  
Into the darkness  
All I see is you  
It's totally magic  
What we've just been through  
But now it's all over like a wave crashed on the rocks  
I'm not your jesus so will you get off my cross  
You ruined it all  
People are crying  
What are we going to do  
People are crying  
I don't care about them I care about...  
You in your wisdom you ruined it all  
You sacrificed me for the cause of the storm  
You ruined it all
