

You were light in a tunnel  
You were my plane up to the sky  
You were round like a bubble  
You were strung slightly too high  
If you stop listen don't say anything  
Then you'll know you can be sure of one thing  
Take your time then you can be anything  
Take your time take your time

Swing around to the right now  
I want to see your profile  
You said when are we going  
I said we'll be there in a while  
Don't you know that when i need you  
I always try to stall  
Why do you pretend you don't notice at all  
Your feeble attempts at detachment  
Are so low  
I shouldn't care at all

You say how come i still want you  
I don't know the reason why  
Draw your own conclusions  
Draw a cartoon of the sky  
If you stop listen don't say anything  
Then you'll know you can be sure of one thing  
Take your time then you can be anything  
Take your time - take your time
