

Werewolf Palm

Fences

She asked me why I'm stuttering
'Cause I don't believe in what I'm saying
And when I left it was like a death
And when I left it was like my head
Was too gone to turn down getting undressed
Too gone to turn down getting undressed
With werewolves

Your heart in black lace
Standing there on my grave
Your heart in black lace
Standing there on my grave

We both died, she buried me
Through the bracelet in the fireplace
And when I left it was like a death
And when I left it was like my chest
Was too gone to turn down taking in breath
Too gone to turn down taking in breath
With werewolves

Your heart in black lace
Standing there on my grave
Your heart in black lace
Standing there on my grave
Your heart in black lace
Standing there on my grave
Your heart in black lace
Standing there on my grave

Too gone to turn down
Too gone to turn down
Too gone to turn down
Too gone to turn down

Your heart in black lace
Standing there on my grave
(Too gone to turn down getting undressed)
Your heart in black lace
Standing there on my grave
(Too gone to turn down getting undressed)
Your heart in black lace
Standing there on my grave
(Too gone to turn down getting undressed)
Your heart in black lace
Standing there on my grave

Too gone to turn down taking in breath
(Like a death, like a death when I left)
Too gone to turn down taking in breath
(Like a death, like a death when I left)
Too gone to turn down taking in breath
(Like a death, like a death when I left)
Too gone to turn down taking a death
It's like a death when I left
