

## Venus Flytrap

Feng Suave

Lyin' awake all weekend  
Like a bug stuck in a Venus Flytrap  
Am I supposed to hold out, darling?  
We don't have forever  
(I'm just a bug)  
I'm just a bug and I'm yours to slowly digest

To her I came just to lay and rest my head  
Her firm embrace, it would make my final bed  
Mother nature takes no prisoners  
But I'll never leave these living walls

You got me seduced in fluent haiku  
I'll be abused if that means I can lie beside you  
Where I'll dissolve  
Into the colours on the forest floor  
Where far above  
The butterflies flutter by but I won't  
Buzz along

To her I came just to lay and rest my head  
Her firm embrace, it would take my final breath  
But mother nature decides  
That's why  
She'll always rule and you'll abide it  
That's what I did too

Just lie to die  
I'm in love
