

# Engines

Fenix TX

Hey man, we're flying too close to the sun  
Closed your eyes and now we're headed for Mars  
I think that this may be my last transmission  
Feel the heat under my feet  
The air goes cold, and I fall asleep  
The engines die, and so do I  
Did you get the message?

Hey man, we're flying too close to the sun  
Close your eyes and now you're headed for Mars  
I think that this may be my last transmission  
Feel the heat under my feet  
The air goes cold, and I fall asleep  
The engines die, and so do I  
Did you get the message?

I don't wanna take you or break you down  
Wished I could save you but I can't shut this town

Hey man, we're flying too close to the sun  
Close your eyes and now you're headed for Mars  
I think that this may be my last transmission  
Feel the heat under my feet  
The air goes cold, and I fall asleep  
The engines die, and so do I  
Did you get the message?

Sleeping wears you down  
All the nightmares throw you around

She's like picture and that picture  
I'll be watching from the sidelines  
Live your own life, don't reflect on  
The way that I ended mine

Hey man, we're flying too close to the sun  
Close your eyes and now you're headed for Mars  
I think that this may be my last transmission  
Feel the heat under my feet  
The air goes cold, and I fall asleep  
The engines die, and so do I  
Did you get the message?

Hey man, we're flying too close to the sun  
Close your eyes and now you're headed for Mars  
I think that this may be my last transmission  
Feel the heat under my feet  
The air goes cold, and I fall asleep  
The engines die, and so do I, so do I
