

## Red Deer Day

Fenne Lily

For the longest time I've imagined I  
Am alone and now it's real  
Didn't know how it'd feel  
Now I picture us as we once were  
Lying side by side and breathless  
Thinking all this time was endless

I'm alright or I will be in time  
I'm alright

The time we took acid in the woods  
I was so in love with everything  
I put it down to oxygen in my brain  
You felt the same  
Told you I'm alright with a small life  
And that wasn't a word of a lie at the time  
Tell your brother I'll be alright  
Or that I will be in time  
In time

I don't have words for this new verse  
Probably something about you again  
Wanna call and get your thoughts on it  
But I don't 'cause we're not in love  
As of really really recently  
Still trying to get used to it

I'm alright or I will be in time  
I'm alright  
I'm alright or I will be in time  
I'm alright

Just because it hasn't gone to plan  
Doesn't mean it's gone to waste  
Picture me whatever way you can  
Remembering has a place  
Picture me whatever way you can  
Remember me as a place

I'm alright or I will be in time  
I'm alright  
I'm alright or I will be in time  
I'm alright
