

## Three Oh Nine

Fenne Lily

So they tell me  
Hold him while you can  
And you show me  
How it is to know a man  
And it all seems right  
When we talk through the night

How could I know  
How this would go?

It's a first for me  
It's a pain I need  
It's too good to be  
Please don't leave  
Please don't leave

So I let go  
Moments at a time  
'Cause I know soon  
I am losing what is mine  
But I say too much  
To justify your touch

How could I know  
How this would go?

It's a first for me  
It's a pain I need  
It's too good to be  
Please don't leave  
It's a first for me  
It's a pain I need  
It's too good to be  
Please don't leave  
Please don't leave
