Baby hear me callin' baby
Come over here and love me hold your lovin' body close to mine
Crazy you're drivin' me crazy
Maybe you don't mean to but you never know what's goin' on in a
woman's mind
I know you've been hurt before
You don't know what you're lookin' for and you're lonely
If you'll only let me stay I will kiss the tears away and love
you forever
Baby I'm on my knees now baby
I know that you're a lady but I wanna watch the sun come up wit
h you
Baby hear me callin' baby
I know that you're a lady but I wanna watch the sun come up wit
h you
I know that you're a lady but I wanna watch the sun come up wit
h you
