

True And Lasting Kind

Ferlin Husky

Yes our love is the true and lasting kind
I walk the line because you make me want to
Because you're mine there's a lot of things that I don't do
It makes me proud to tell the world you're mine
Yes our love is the true and lasting kind
I've searched for ways to tell you that I love you
And make you know that no one stands above you
It's the thought of you that gets me home on time
Yes our love is the true and lasting kind
It scares me sometimes when I stop to wonder
What would I do without you by my side
I could never fill the space you leave behind yes our love is t
he true and lasting kind
Yes our love is the true and lasting kind
