

Closer

Ferras

Would you let me hold ya?
I been waiting too long for ya
It started as a crush
Now I want you closer

Oh, come into my space
I say it to your face
I want you at my place
Come closer
Oh, I be like
Go on, go on, go on, go on, go on
I'm going in
And it begins

I just want you closer
Your body and your mind
I just need you closer
All day long, all night
And every day gets harder
When I keep walking by
I just want you closer
I want you by my side

Would you let me inside?
Wanna know just what you're thinking
My love is authentic
Not just cause I'm drinking

Oh, you're looking like a dream
So I don't wanna sleep
Can we get between the sheets?
Come closer
Oh, I be like
Go on, go on, go on, go on, go on
I'm going in
And it begins

I just want you closer
Your body and your mind
I just need you closer
All day long, all night
And every day gets harder
When I keep walking by
I just want you closer
I want you by my side

'Cause I need, I need, I need, I need
(Come in closer) Come closer, closer, closer, closer, closer, closer

Come into my arms, let it be the one
Come closer, closer, closer, closer, closer, closer
Come into my arms, let it be the one

Hope you don't mind me coming on so strong
You just need to know where I'm coming from
If you never take a chance, then the chance is gone
Then you're only gonna miss what you didn't done

No, oh, yeah eah eah
No, no, yeah yeah

I just want you closer
Your body and your mind
I just need you closer, woah
All day long, all night, yeah
And every day gets harder, woah
When I keep walking by
I just want you closer, yeah
I want you by my side

'Cause I need, I need, I need, I need
(Come in closer) Come closer, closer, closer, closer, closer, closer, closer
Come into my arms, let it be the one
Come closer, closer, closer, closer, closer, closer, closer
Come into my arms, let it be the one
Come closer, closer, closer, closer, closer, closer, closer
Come into my arms, let it be the one
Come closer, closer, closer, closer, closer, closer, closer
Come into my arms, let it be the one
