Medicine

Ferras

[Ferras:]
When it start to rain and my sunny turns to gray
I got a feeling, you got the healing
When I fall to the ground and my world is burning down
I got a feeling, you got the healing

[Ferras and Raja Kumari:]
And I don't need no, no chemicals
Cause your loving is oh so natural
On my mind and all on my physical
When you come around
And I don't need no, no chemicals
Cause your loving is oh so natural
On my mind and all on my physical
When you come around

[Ferras:]
I'm better, I'm better with you
I need you, I need you, it's true
Everyday I come back again
For a little dose of your medicine
I'm better, I'm better with you
You're my medicine
