

# Something About You

Ferras

She was a snowflake  
I was an earthquake  
She was a flash flood  
We made electricity

I'm Prozac numb  
I'm wired all wrong  
I've been shut down  
For so long  
Nothing gets through

But there's  
Something bout you  
That makes me cry  
Watching you  
Making the sun shine  
Breaking the flatline  
Kissing my heart to life  
There's somethin bout you  
You kill my suicide  
The're something about you  
That makes me cry

She was a bright light  
I was a fist fight  
If i was a brick wall  
She would run  
Right into me

The freeway's stuck  
The sky is grey  
Another ordinary day  
To get through

Hands up  
I surrender  
I'm ready  
To feel again  
I want to remember  
How it feels  
To get back  
On my knees again  
Open my heart  
And bleed again  
I'm gonna be alright  
On the other side  
Of the pain

Watching you  
On the subway  
In the sunlight  
At 4 in the morning  
Holding on tight  
Makes me cry  
And you're reversing  
At 100 miles an hour  
Speeding towards me

In a meteor shower  
Makes me cry  
And you're  
Still laughing  
At something i said  
Yesterday  
That it  
Wasn't even funny  
That makes me cry  
And i'm ready  
To breath  
And to hurt  
And to love  
And to burn  
And to crumble  
At your will

There's something  
About you  
You kill my suicide  
That makes me cry  
There's something  
About you  
That makes me cry
