

Freefall

Ferry Corsten

In a landslide of fading dreams,
We're on our own
When you're flying with broken wings,
Where do we go?
When the answers ain't what they seem,
What do we know?
We're just trying to be queens and kings,
But where is the throne?

I wanna freefall, a million feet tall
Hold my hand 'till we land in the air
We'll find out who we are
I wanna freefall, just to leave it all
Take a chance, say you can't, but you can
We'll find out who we are

Take a chance, say you can't, but you can
We'll find out who we are

We're just dancing on burning ground
That we call home
With a romantic undertone,
Watching it glow

I wanna freefall, a million feet tall
Hold my hand 'till we land in the air
We'll find out who we are
I wanna freefall, just to leave it all
Take a chance, say you can't, but you can
We'll find out who we are

Take a chance, say you can't, but you can
We'll find out who we are
