

# One Thousand Suns

Ferry Corsten

If I feel like another part of me  
The silence starts to falter  
The lights above will help to guide you home

I can't bleed and hear the empty sound of me  
The silence it's getting louder  
The lights above will shine to bring you home

Will help to guide you home  
Will help to guide you home and home

I can't bleed and hear the empty sound of me  
The silence it's getting louder  
The lights above will shine to bring you home

I can't bleed and hear the empty sound of me  
The silence it's getting louder  
The lights above will shine to bring you home
