

# We Belong Feat Maria Nayler

Ferry Corsten

Days... Days... Days...  
Stealing secret moments  
Breathing in the summer sun  
As the sea of changes  
Wash ashore

Days  
In the great wide open  
Theres so much to catch the eye  
Your beauty,  
Shade and light  
Shade and light

Quiet Witness to forever  
In my silene I keep holding on  
I am waiting 'til forever  
And I understand where we belong

Quiet Witness to forever  
In my silene I keep holding on  
I am waiting 'til forever  
And I understand where we belong

And I understand where we belong  
And I understand where we belong  
And I understand where we belong  
And I understand where we belong

Stealing secret moments  
Breathing in the summer sun  
As the sea of changes  
Wash ashore

Days  
In the great wide open  
Theres so much to catch the eye  
Your beauty,  
Shade of light  
Shade of light

Quiet Witness to forever  
In my silene I keep holding on  
I am waiting 'til forever  
And I understand where we belong

Quiet Witness to forever  
In my silene I keep holding on  
I am waiting 'til forever  
And I understand where we belong

Stand where we be,  
Stand where we be,  
Stand where we be...

Quiet Witness to forever  
In my silene I keep holding on  
I am waiting 'til forever

And I understand where we belong

Quiet Witness to forever  
In my silence I keep holding on  
I am waiting 'til forever  
And I understand where we belong

And I understand where we belong  
And I understand where we belong
