Huh  
Late night, early morning  
You the one I'm callin'  
Don't be tryna stallin'  
Catch you when you fallin'  
Climbing up the walls and  
[?] see I fallin'  
And if I wasn't ballin'  
Would she still be all-in?  
You look so bad, but that pussy so good  
If it don't last, baby girl you know what?  
I need more gas, and I need some power

My whip's so fast and I got the dozer

Ain't nothing but a swipe, but  
I can make you feel so good baby  
I ain't your ordinary type  
When the minute that I feel so good baby  
You know it's hard to find your type  
And you just what I like, yeah  
I just wanna make you mine baby  
First time that you skyped me

All those summer nights
