

# Spaceship

Fetty Wap

All black beamer, that's my spaceship  
Disrespect my girl, I'ma give your ass a facelift  
Do this shit for Franklins and Benjamins, they my favorite  
Tell me why you here, cut the shit, girl who you playing with?  
We squad of the year, RGF is here to claim it  
ZooWap, I'm the man from the bando, what you saying?  
I can take your hoe with bands, I speak a different language  
I might flex, finesse, I take your hoe and who she came with, ay

Have you ever seen a spaceship, ay  
Traveling to different places, ay  
Them Benjamins, I'm talking faces, ay  
Come take a ride up on my spaceship, ay  
Y-young niggas, we flexing  
Jersey we next man  
Young niggas, we flexing, ay  
Have you ever seen a spaceship, ay  
Traveling to different places, ay

I'm taking off just like a spaceship  
Success is near and I can taste it  
Nothing was ever given, I had to take it  
T-times got hard, I had to face it  
But I promise all of my niggas we gon' make it  
And if they don't open the door, then we gon' break it  
Like, what the fuck is you thinking?  
Won't stop 'til we laughing all the way to the bank  
Counting Benjamin Franklins, foreigns, Lambos and Bentleys  
Gas tank never empty, all these women tryna to tempt me  
Watching out for them niggas that be hating living with envy  
Once you get money the people start to get friendly  
Ain't got much friends but that money, yeah I got plenty  
When it come to them hundreds, Nikosi need many  
I do this shit for my family  
Said I do this shit for my family

Young nigga, we up next  
All I know is hustle, flex  
Jersey nigga, that's what I rep  
Any disrespect, then off with your neck  
And I put that on my mama, you don't want that drama  
As a young nigga on the block, I had to learn to make commas  
When you make money, fake friends hate  
Backstabbers take off your plate  
Grass cut, I can see y'all snakes  
I'm a real nigga, most of y'all fake  
Claim the streets but talk to the jakes  
If you not real, then I can't relate  
Chasing all these dead faces  
Money talk and y'all don't conversate  
Henny up, I don't chase  
Off loud lost in space baby  
From the jungle where it's wild and crazy  
Been stressing going through a lot lately  
Sitting like dear Lord please save me  
Never giving up, still dream chasing

With my team in our spaceship  
Flying to that money and we ain't waiting
