

DO OR DIE

FEVER 333

Excuse me Mr mayor Mr player shot sayer
What you call it when we callin on you
To make it fair for the people over there at the bottom of your top down vie
w?
We just want a little bit we hope that you'll consider it
You tell us we should work hard after you were given it
The lord giveth but I taketh away
So pray to god that I don't find the safe

Don't lock me out
Don't lock me out
Out of a heaven where the stairway only goes south
Don't lock me out
Don't lock me out

Do or die I'ma get paid
I'm either gon get mine or I'ma just take
How can you ask me why
When everything we try
When tryna make it right
They call a mistake?

Do or die I'ma get paid
I'm either gon get mine or I'ma just take
How can you ask me why
When everything we try
When tryna make it right
They call a mistake?

Why I'm feeling shame
When I'm asking to be paid
For dirty work I put in
So your hands could stay clean
Why I feel the pangs
From your hunger to attain
Every last crumb after you licked on all the plates

It ain't fair
They don't care
Let me share my experience here
As a cautionary tale
They took it all then some more
Don't complain when you fall through the floor
Cuz today you've been warned

Do or die I'ma get paid
I'm either gon get mine or I'ma just take
How can you ask me why
When everything we try
When tryna make it right
They call a mistake?

Damn

Do or die I'ma get paid
I'm either gon get mine or I'ma just take
How can you ask me why

When everything we try
When tryna make it right
They call a mistake?

Hey
G g g g g go
Fuck around
Duck around
Fuck around and you'll find out

Fuck around and you'll find out
How it
Feels to be without
Take a walk in our shoes find that nothing to lose is a dangerous route
