

HIGHER POWER

FEVER 333

To all my people, my beautiful black skin people
If we are born equal, how can someone be illegal?
Black, Brown, Asian, don't forget who built this nation
They done broke the foundation, but won't pay for the reparations

Higher power
We got that higher power
We are that higher power
And we gonna give it, give it
Gonna give it to them
Higher power
We got that higher power
We are that higher power
And we gonna give it, give it
Gonna give it to them

The transfixion on all trans fiction
Such a poor depiction of all these gorgeous people
Don't get it twisted yeah, I'm gonna be explicit
Sexuality is liquid so fluidity is seeping in

Higher power
We got that higher power
We are that higher power
And we gonna give it, give it
Gonna give it to them
Higher power
We got that higher power
We are that higher power
And we gonna give it, give it
Gonna give it to them

To all my people, my beautiful black skin people
If we are born equal, how can someone be illegal?

Higher power
We got that higher power
We are that higher power
And we gonna give it, give it
Gonna give it to them
Higher power
We got that higher power
We are that higher power
And we gonna give it, give it
Gonna give it to them

Higher power
We got that higher power
