

I got my backpacks filled with them bits
Tryna build the town up and that's some biggy
Till the taxman come and try to get that
Try to take the money and the girl with it

Every stick and every stone
Carry up that hill just to make some
With our own two hands tryna make some, whoa

But we change none
But we change none
We building castles while the world falls down (falls down, falls down)
We building castles while the world falls down (falls down, falls down)
We building castles while the world falls down (falls down, falls down)
We building castles while the world falls down (falls down, falls down)

Watch us take the crown

No one's gonna take us down
They won't forsake us now
So let 'em come
This kingdom you can't take from us
No one's gonna take us down
They won't forsake us now
So let 'em come
This kingdom you can't take from us

Yo, guess where I'm from, that's where I'm from
The place where you profit from prisons and guns
Guess where I'm from, that's where I'm from
Come on out here we like to sell guns

Guess where I'm from, that's where I'm from
And God forbid you ever leave us a crumb
That's where I'm from, and that's where I'm from
A place with the best fucking film and you

Watch us take the crown

No one's gonna take us down
They won't forsake us now
So let 'em come
This kingdom you can't take from us
No one's gonna take us down
They won't forsake us now
So let 'em come
This kingdom you can't take from us

This kingdom you can't take from us
This kingdom you can't take from us

No one's gonna take us down
They won't forsake us now
So let 'em come
So let 'em come
No one's gonna take us down
They won't forsake us now

So let 'em come
So let 'em come

Watch us take the crown

No one's gonna take us down
They won't forsake us now
So let 'em come
This kingdom you can't take from us
No one's gonna take us down
They won't forsake us now
So let 'em come
This kingdom you can't take from us

This kingdom you can't take from us
This kingdom you can't take from us
