

## LAST TIME

FEVER 333

You let us down the last time  
You said it would be the last time  
We ain't forget the last time  
Falling in your footsteps no more

Please let me go they pleaded  
No, not till my job's completed  
So let's just pretend I'm needed  
Falling in your footsteps no more

Right here where we stand  
Is right where we belong  
From 3/5 a man  
To a million men strong

You let us down for the last time  
You let us down for the last time  
You said this would be the last time  
You let us down for the last time
