

Vandals take back what we should
The future is scary, ugly, evil, ugh
Get these police out my hood
The future is scary, ugly, evil, ugh

I learned to be let down when y'all was learning 'bout them fables
Got accustomed to them wars while I was laid up in my cradle
You got the fucking nerve to tell me that I'm unstable
Now what the fuck you doing to put food up on my table?
You can charge it to the game and to the streets
And if I'm going down, at least I'm gonna eat
And if you ever really thought to even practice what you preach
Then we wouldn't be here screaming out "Impeach, impeach, impeach"

Vandals take back what we should
The future is scary, ugly, evil, ugh
Get these police out my hood
The future is scary, ugly, evil, ugh

Please don't get me started
Weak hearts what we target
Conscious when we talk
Act ghetto when we want to
From gold chains to big brains
Them pickles dipped in Kool-Aid
The Thirteenth Amendment, sessions one and two
And you can charge it to the game and to the streets
And if I'm going down, at least I'm gonna eat
And if you ever really thought to even practice what you preach
Then we wouldn't be here screaming out "Impeach, impeach, impeach"

Vandals take back what we should
The future is scary, ugly, evil, ugh
Get these police out my hood
The future is scary, ugly, evil, ugh
