

Say It Again

Fey

I wanna be free I've got something to say why does it have to be this way now that we've ran out of love why should our feelings be so feared so have no fear.

Day after day (day after day) Night after night (night after night) I work so hard to make it right don't wanna hear them tell me what to say or do cuz you know it's true

Now it's clear what we fear it's sincere take my hand and let's dance tonight we'll let the music take us high.

Let's wake up Let's make love Let's speak love I gonna say it again Let's wake up let's make love let's speak love I gonna say it again and again.
