

# God Of The Promise

FFH

Out of bondage, out of slavery  
You have lead us to this place  
Out of affliction from the hands of our oppressors  
And we will not lose heart 'cause this is a second start

You are God of the promise  
And You will go before us  
And will follow  
You are God of the desert

With mercy beyond measure  
And now we know  
You have not forgotten us  
God of the promise

You are God of Elijah  
You are consuming fire  
You are God of Moses  
You are strong through the wilderness

You are God of Elijah  
You are consuming fire  
You are God of Moses  
You are strong through the wilderness

You've been there for them  
You'll be there for me too
