

We Sing Alleluia

FFH

There's an anthem ringing out
You can hear it clear and loud
Coming from the hearts of men
Echoing the Great I Am

And it goes on and on and on and never fades away
On and on and on and so we join today

We sing alleluia
Praise Your name and glorify
We sing alleluia
Lift our voices to the sky

There's a song that never dies
It lives within the heart that cries
Out for mercy on the streets
It's a cry of love and harmony

And it goes on and on and on and never fades away
On and on and on and so we join today

Men have praised You
Through the ages
Followers who have gone before us
So we stand before You
And we lift our voices
All together we join the chorus
