

Irreplaceable

F.HERO

Lone night, lights in the sky
We used to be here
You were by my side
Sipping on wine
Baby, I said goodbye
I thought I'll find someone
All fine

Oh another day's just gone
Another night will fall
Nobody's come along
Still no getting over you, a hole in my head

Never thought would take this long
The feelings get so strong
Why can't I move on?
Guess I was wrong

No one replaces you in this life
I am missing you
Irresistible, undeniable
Can't believe that our love was through
I realize that the best was you
So incredible, unforgettable
I would never find a love like you
Wishin' I could find my way back to you

Irreplaceable
Cuz you're the only one that could be my power
Baby, you are so rise and shine like all these flowers
If u got some time just coming over
Sip your favorite coffee
I'mma back to you, back to you
Cuz you're irreplaceable

[illegible]

No one replaces you in this life
I am missing you
Irresistible, undeniable
Can't believe that our love was through

I realize that the best was you
So incredible, unforgettable
I would never find a love like you
Wishin' I could find my way back to you

Irreplaceable
Got me feeling higher
Got me on the beat
Take you all around maybe take you overseas
Now im all up in this pressure
Always took for treasure
 centimeter
My boo my everything
 centimeter
Now can I get a chance
To bring you all the cheese
 Make me wanna make a song about a chick

No one replaces you in this life
I am missing you
Irresistible, undeniable
Can't believe that our love was through
I realize that the best was you
So incredible, unforgettable
I would never find a love like you
Wishin' I could find my way back to you

Irreplaceable
Cuz you're the only one that could be my power
Baby, you are so rise and shine like all these flowers
If you got some time just coming over
Sip your favorite coffee
I'mma back to you, back to you
Cuz you're irreplaceable
