

# Cosmic Coming of Age

## Fickle Friends

Thought I had it figured out  
On my high horse some how  
One of those people you wanna hate  
Loved up grown up coming up coming down

I'm waking up in a daze  
Crashing out from the wave  
One of those people at home getting stoned on their own  
Feeling sorry for their sorry state

Hey  
Well it came out  
Out of nowhere outta nowhere  
And the funny thing is I'm not dreaming

Turn the lights out  
Dig a grave  
Go to hell and  
Go insane  
It's fear  
It's a rage  
It's a cosmic coming of age  
It's a sunrise  
But it's dark  
Hit the bottom I'm back at the start  
It's a come back  
It's a phase  
It's a cosmic coming of age

I'll start at the beginning  
Cos everything has lost meaning  
One of those moments you wanna know  
Ya future do I know someone with a time machine  
I need to know either way  
If I'll make it through another phase  
One of those moments you'd go  
Anywhere, everywhere just to make it through the everyday

Hey  
Well it came out  
Out of nowhere out of nowhere  
And the funny thing is I'm not dreaming

Turn the lights out  
Dig a grave  
Go to hell and  
Go insane  
It's fear  
It's a rage  
It's a cosmic coming of age  
It's a sunrise  
But it's dark  
Hit the bottom I'm back at the start  
It's a come back  
It's a phase  
It's a cosmic coming of age

Hey  
Will I make it out alive  
In my own way  
Am I floating am I starting to  
Fade  
When it came out  
Out of nowhere out of nowhere  
And the funny thing is I'm not dreaming

Turn the lights out  
Dig a grave  
Go to hell and  
Go insane  
It's fear  
It's a rage  
It's a cosmic coming of age  
It's a sunrise  
But it's dark  
Hit the bottom I'm back at the start  
It's a come back  
It's a phase  
It's a cosmic coming of age
