

Love You to Death

Fickle Friends

(Yeah, yeah, yeah)

I look tense
I love the heart inside your body
I like the way you taste like honey
In my mouth
It makes sense
We are the [?] against the beating
And I'm alive but you make me think
That I'm dead

I'm way past the point
Of a heartache, another mistake

I would glue myself to every inch of your skin
'Cause baby you're the only one (yeah, yeah, yeah)
I'd suffocate you with the touch of my lips
'Cause baby you're the only one

You look real
You're in my heart and skipping a beat
Color me in until I'm completely red
(Yeah, yeah, yeah)
Is it love?
I am the stormy cloud [?]
And you're alive as long as you're here
In my head

I'm way past the point
Of a heartache, another mistake

I would glue myself to every inch of your skin
'Cause baby you're the only one (yeah, yeah, yeah)
I'd suffocate you with the touch of my lips
'Cause baby you're the only one

I wanna hold you real tight
'Cause you running through my mind
Watch the air escaping your lungs
I won't let you go for no one
Hold you real tight
'Cause you running through my mind
Watch you struggle with every breath
'Cause baby I love you to death

Hold you real tight
'Cause you running through my mind
Watch the air escaping your lungs
I won't let you go for no one
Hold you real tight
'Cause you running through my mind
Watch you struggle with every breath
'Cause baby I love you to death
I love you to death
I love you to death
I love you to death
I love you to death

I love you to death

I will glue myself to every inch of your skin
'Cause baby you're the only one (yeah, yeah, yeah)
I'd suffocate you with the touch of my lips
'Cause baby you're the only one (yeah, yeah, yeah)

Love you to death (yeah, yeah)
Love you to death (yeah, yeah)
