Say No More

Fickle Friends

Say no more!
Everything is so in focus
Drifting away, drifting away, drifting away
There is some you beholding,
Show me a way, show me a way.

Just looking in the dead, I'm your resort
Do to say, you say no more
Do to say, you say no more
Wonder how the time it runs its course
Never again I say no more
Never again I say no more
Days are blending far to be away, away
Hard to miss denial, tell me the day I say no more
Tell me the day, I say no more

Everything is so in focus
Drifting away, drifting away, drifting away
There is some you beholding,
Show me a way, show me a way.

Sipping half your life, open toast
Everyday I'm waiting for,
Everyday I'm waiting for
Covered inside, you miss your soul
Do or say, you say no more
Do or say, you say no more
Days are blending far to be away, away
Hard to miss denial, tell me the day I say no more
Tell me the day, I say no more

Everything is so in focus
Drifting away, drifting away, drifting away
There is some you beholding,
Show me a way, show me a way.
Say no more!

Say no more!
Say no more!

Everything is so in focus
Drifting away, drifting away, drifting away
There is some you beholding,
Show me a way, show me a way.
