

Write Me a Song

Fickle Friends

Shut up and write me a song
That makes me lots of money while I'm sitting at home
I wanna hear it playing when the radios on
I don't care where you get your inspiration from
Just write me a song

Look at me I play guitar
In a band that's got quite far
And if we play the songs you know
We're gonna gonna steal the show
Yeah yeah

Look at me on MTV
On your television screen
But that's not good enough for you
There's always something more to do
Yeah yeah

Stop lying
Just be honest
You're about to say it

Shut up and write me a song
That makes me lots of money while I'm sitting at home
I wanna hear it playing when the radios on
I don't care where you get your inspiration from
Just write me a song

Just write me a song

Hey we're writing something new
Sick of listening to you
We're deviating from the crowd
You gotta turn it up real loud
Yeah yeah

Stop lying
Just be honest
You're about to say it

Shut up and write me a song
That makes me lots of money while I'm sitting at home
I wanna hear it playing when the radios on
I don't care where you get your inspiration from
Just write me a song

Just write me a song
Just write me a song

Stop lying
Just be honest
You're about to say it

Shut up and write me a song
That makes me lots of money while I'm sitting at home
I wanna hear it playing when the radios on
I don't care where you get your inspiration from

Just write me a song

A song

A song

A song

Just write me a song
