

## Hit the Mark

**Fiction Factory**

Nothing and no-one can tear us apart  
Nothing and no-one right from the start  
Opens love slowly comes straight from the heart  
Nothing and no-one right from the start

And I'm opening up so slowly  
Hit the mark - let's face it  
Let's do it again  
Hit the mark - let's face it  
Let's feel the pain
