Fiddlehead

"You try, yet you feel unsure of yourself and lie on the "failure floor."

Don't you feel so down?

Are you out? I know you are down, but are you out?  
Are you out? I know you are down, but are you out?  
Are you out? I know you are down, but are you out?  
Are you out? I know you are down, but are you out?

No one cares. It's just a name  
You are more than a degree

Rising pressure and stress to measure up to standards set so high in your mind

Are you out? I know you are down, but are you out?  
Are you out? I know you are down, but are you out?  
Are you out? I know you are down, but are you out?  
Are you out? I know you are down, but are you out?

Out of hope? Are you out of hope?  
Out of drive? Are you out of drive?  
Out of love? Are you out of love with this life?

No one cares. It's just a name  
You are more than a degree  
I don't care what you make \$\$\$  
It's who you love and what you gave  
Up from your bed...  
Back in your way...  
Out of your head...

Are you out? I know you are down, but are you out?  
Are you out? I know you are down, but are you out?  
Are you out? I know you are down, but are you out?  
Are you down?  
Are you down?  
Are you out?  
Are you out?
