

# Get My Mind Right

Fiddlehead

Help me find a better way to lose old friends  
With better things to do, family  
Who doesn't have the time  
Hope and my collapsing mind

You said you'd help me get my mind right  
You said you'd help me get my mind right  
You said you'd help me get my mind right  
You said you'd help me get my mind right

Right

Such small towns have a way to slow you down  
Have you watch the paint dry  
And wait for sunrise

You said you'd help me get my mind right  
You said you'd help me get my mind right  
You said you'd help me get my mind right  
You said you'd help

You got a lot, Tess, of life left  
You're not hopeless  
Make up the mind to  
Find your motion

You got a lot, Tess, of life left  
You're not hopeless  
Make up the mind to  
Find your motion
