

Loser of love, loser of life
Loser of hope, loser of mind
Loser of heart, loser of sight
Of a wider world suffering outside

Light me up in effigy
Light me up in flames
Light me up in effigy (Light me up in effigy)
Light me up in flames, 'cause the only woe is me

I met a girl whose brother passed
Out of nowhere in a car crash
And a baby boy whose daddy died
Five weeks before he came to life

Light me up in effigy
Light me up in flames
Light me up in effigy (Light me up in effigy)
Light me up in flames, 'cause the only woe is me

Just get by and die, just get by and die
Let your depression pour the pity onto you
Just get by and die, just get by and die
See the world in a melancholic blue
Just get by and die, just get by and die
Ignore the richness and the privilege you have known
Just get by and die, just get by and die
Sink in your sea all on your own

But you're not alone
On your own, but you're not alone
No, you're not alone
No, you're not alone
