

Million Times

Fiddlehead

Come home and fail with me to see that we are wrong
To try and try for love we've had since we were young
Back to acne-high-school-drama: cataclysmic sweethearts
All throughout twenty-something soap-
operas: failed to be peacefully apart

Come back
Come back for our millionth try
Come back
Come back one more million times

What's love if not a war for peace that never ends?
The casualty is if we end up just as friends
Alone and low at home, alone

Come back
Come back for our millionth try
Come back
Come back one more million times

How do I say goodbye
How do I say goodbye
How do I say goodbye to a love I've loved so wild
A million times?
A million times?
A million times?

Come home and fail with me to see that we are wrong
To try and try for love we've had since we were young
