

The Deathlife

Fiddlehead

I get depressed, so I do some more
It's just a dose of sadness
But I don't wanna do it more
I wanna "live like the fish"

Do some more, do some more, do some more, do some more
Do some more, do some more, do some more, do some more
(I don't want any more)
Do some more, do some more, do some more, do some more
Do some more, do some more, do some more, do some more
(I don't want any more)

I don't want any more
I don't want any more
I don't want any more

"I just wanna be pure"
"I just wanna be pure"
"I just wanna be pure"
"I just wanna be pure"
